

IRRADIATION COMMENT FORM

attention FDA: keep irradiation labeling!

Re: Docket # 98N 1038,
"Irradiation in the
Production, Processing
and Handling of Food"

DEAR FDA EMPLOYEE:

I FEEL THAT IF YOU DROP THE REQUIREMENT
TO DISPLAY THE "TREATED WITH IRRADIATION"
SYMBOL THAT YOU ARE CREATING A DOUBLE
STANDARD. SUPPLEMENTS REQUIRE STRICT LABELING
PROTOCOLS, AND IRRADIATED FOOD SHOULD HAVE
STRICTER LABELING REQUIREMENTS TO PROTECT
INFORM THE PUBLIC. WE DON'T KNOW IF IRRADIATED
FOOD IS SAFE OR NOT, SO LET THE CONSUMER CHOOSE.

Ed Stevens signature DON'T USE "COLD PASTEURIZATION"!!
